

## **Agenda Common Good Glasgow April 2013 - meeting to be arranged**

We need to set a deadline / timeline for delivery of containers to accept and get a welder to fix up scrap containers or wait and see if decent ones show up – currently no new containers have been delivered since our last visit 3 weeks ago

Raymond Sutton is delighted with the garden and what we are doing

He is happy to give us weed free space in the park and around the garden if we send him a map which he can give to his supervisors – this needs communication with FOEP

He will also try to get some of the burnt boughs taken down and get the park floodlight outside the building connected

BAE would like to send over some apprentices to help us with the upgrade if they can fit it in

There is the possibility of funding from BIFFA of up to £200,000 as long as we meet certain criteria which fortunately looking at their database, it seems we do

Namely being within 10 miles of a BIFFA project and of being within 10 miles of a licensed landfill

BIFFA measures as the crow flies and so it seems we are within 10 miles of 3 sites
